## 2026 Newsletter

### CASA 1 News:

This month, the children in CASA 1 classroom have continued to build their soccer knowledge and skills through daily practice, hands-on learning, and discussions at circle time. They have been exploring the different positions on the field and the important role they play, learning the rules of the game, and developing teamwork and sportsmanship while practicing, passing, kicking, and ball control.

We have enjoyed plenty of outdoor play, walks, and visits to the soccer field, where the children have had many opportunities to sharpen their skills in a fun and active environment.

We are also excited to introduce some more music into the centre and into our learning! With the addition of a new guitar, Mr. Bruce will begin guiding the children through short lessons. Together, they are learning the basic notes of the major scale while becoming familiar with the guitar. These experiences encourage listening skills, rhythm, confidence, and a love of music while giving the children the opportunity to explore a new form of creative expression.

With the beautiful summer weather, we have often enjoyed our afternoon snacks outdoors. Please remember to send your child with a hat each day so they can stay safe and comfortable while we make the most of our time outside.

- Cochrane Famers' Market
- Movies in the Park (if scehduled)
- Library story times and crafts
- Spray parks and splash pads
- Cochrane Community Bike Park
- Glenbow Ranch Provincial Park
- Family Hikes
- Local playground adventures

## CASA 2 News

Summer fun is in full swing in CASA 2! The children have been making the most of the beautiful weather by spending lots of time outdoors enjoying gross motor activities and picnic snacks with their friends.

We are so proud of how our newer children are settling into the classroom. Thank you to our amazing educators for supporting them in their transitions into their new learning environment. The children are becoming more comfortable with our daily routines and are building friendships with the help of their caring peers, who have been fantastic role models.

Our young learners have also been exploring hands-on sensory experiences through water play, ice exploration, and colour-mixing activities at the water table. These fun experiments encourage curiosity, creativity, and early science learning while keeping everyone cool on warm summer days!

Coming up next, the children will be doing some rock painting. Messy play is one of our favourite ways to learn, create, and explore, especially when we can enjoy it outside in the sunshine!

## A Heartfelt Thank You to Our Families

We would like to extend a sincere thank you to all of our families for your support and cooperation with our new Hug & Go drop-off policy.

We have already noticed a significant positive difference in how quickly and calmly many of the children are settling into their mornings. They are transitioning into the classroom with increasing confidence, engaging with their friends and activities sooner, and beginning their day feeling secure and ready to learn.

These consistent routines are an important part of supporting children's emotional development, independence, and confidence. Your partnership and trust allow us to create a calm, predictable environment where every child can thrive.

We truly appreciate you working alongside us as we continue to support your children's growth and development in the best way we can. Thank you for being such an important part of our growing community!
